## Part A: Understanding Computing (50 marks)

Circle ONE (1) correct answer from A, B, C or D for each question

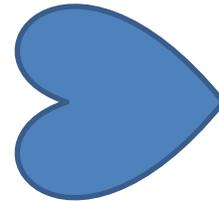

### Question 1

Look at the image below, what tool has been used to change the direction from example 1 to example 2?

Example 1

Example 2

- |                          |                          |
|--------------------------|--------------------------|
| <b>A</b> Rotate Left 90° | <b>B</b> Flip Horizontal |
| <b>C</b> Flip Vertical   | <b>D</b> Send Backward   |

**4 marks**

### Question 2

Which of the following method would you use first when creating a 3D model animation?

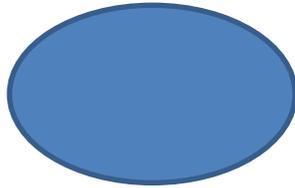

- |                    |                    |
|--------------------|--------------------|
| <b>A</b> Layout    | <b>B</b> Animation |
| <b>C</b> Modelling | <b>D</b> Rendering |

**4 marks**

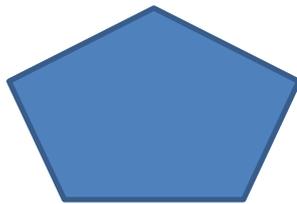

**Question 3**

Which of these shapes is an example of a triangle?

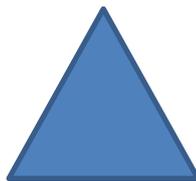

**A**

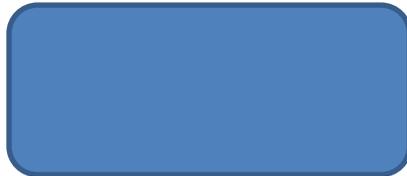

**B**

**C**

**D**

**4 marks**

**Question 4**

Which tool would you use to make two video clips into one video clip?

- A Merge
- B Trim
- C Split
- D Cut

**4 marks**

**Question 5**

Which of the following communication methods would be the most suitable to a business to share information with all staff immediately?

- A Company magazine
- B Intranet announcement
- C Instant Message
- D Blog

**4 marks**

**Question 6**

Which of the following formulas would you use to test if the value in one cell is more than 0?

- A =sum(A1>B1)
- B =sum(A1+B1)
- C =if(A1<0)
- D =if(A1>0)

**4 marks**

**Question 7**

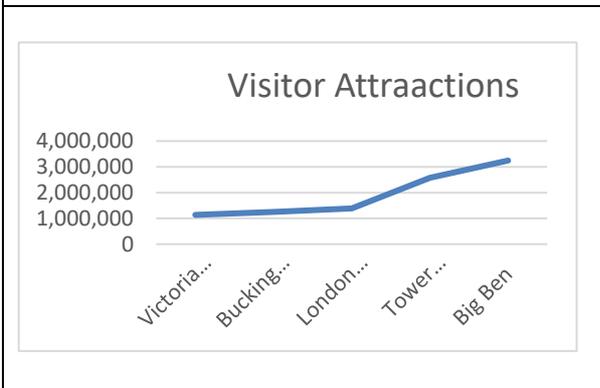

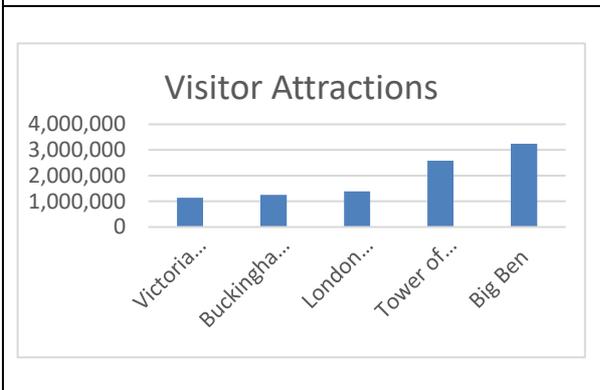

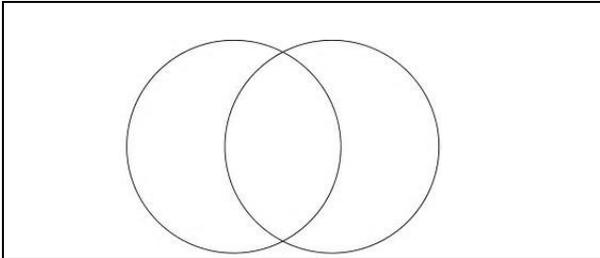

You have been asked to help plan a network. Which speed cable would be the best?

- A gigabit
- B 500MHz
- C 600MHz
- D megabit

**4 marks**

**Question 8**

Match the name of the chart to the image.

**A Bar Chart**

**B Venn Diagram**

**C Pie Chart**

**D Line Graph**

**4 marks**

**Question 9**

The main technology used in home remote controls is which one of the following?

- A ultrasonic
- B infrared
- C x-rays
- D radio waves

**4 marks**

**Question 10**

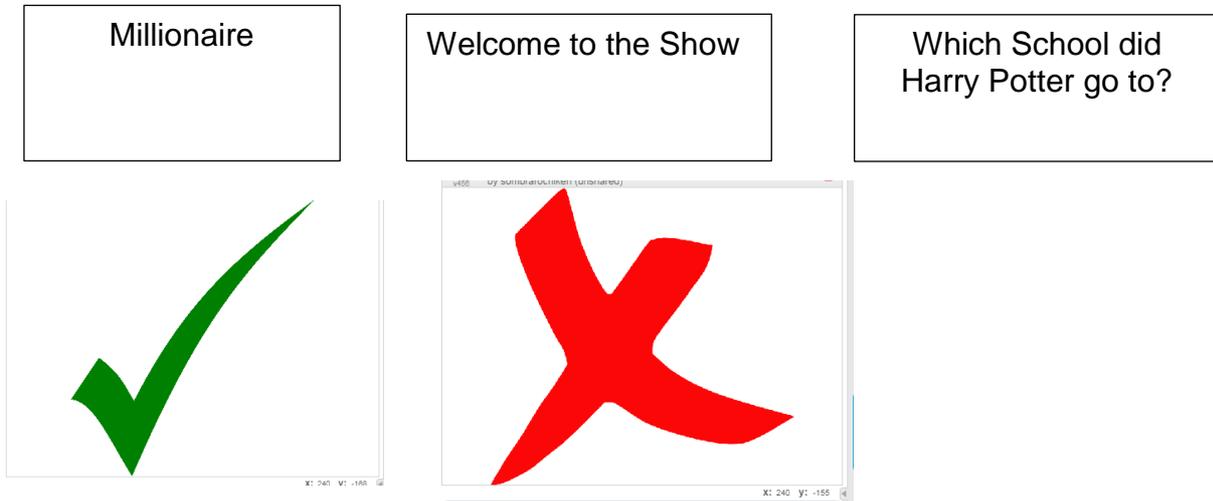

A company wish to consolidate and manage customer information, which of the following software should be used?

- A MS Paint
- B DBMS
- C Power Point
- D uTorrent

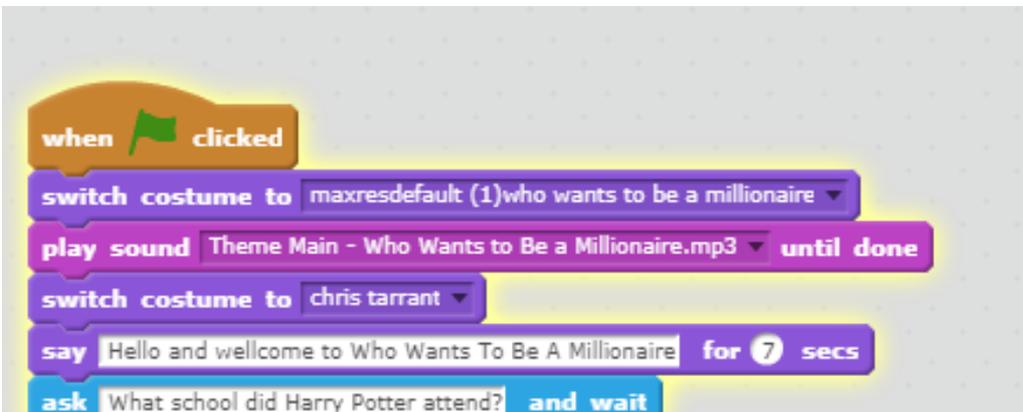

**4 marks**

### Question 11

A student writes a program using Scratch to ask questions similar to “Who wants to be a Millionaire” quiz. They have provided the following screens.

They have also provided you with some of the code. What is the most appropriate next step in the code?

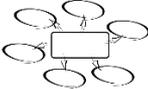

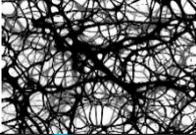

- A** switch costume to tick  
**C** wait for 7 secs
- B** switch costume to cross  
**D** if answer = Hogwarts then

**4 marks**

**Question 12**

**Which of the following is an example of a mesh network?**

A	
B	
C	
D	

**4 marks**

**Question 13**

**To send a message quickly, which of the following software would you use?**

A.	B.
	

**2 marks**

## Part B: Using Computers (50 marks)

### Question 12

#### Use presentation software for this question

Create a short presentation about 3D Printing. The presentation should have THREE (3) pages with each having a different coloured background. The text on each page must be written using the font style “**Comic Sans MS**” with a colour which is distinctive from that of the page background.

- The first page should have a picture of a 3D printer and the title “3D printing”. When you click on the picture of the 3D Printer, it should go to a website which gives details of what 3D printing is: [https://en.wikipedia.org/wiki/3D\\_printing](https://en.wikipedia.org/wiki/3D_printing)
- The presentation should move to a second page automatically after 5 seconds. This page should have a short video of the history of 3D Printing (no more than 2 minutes). When you click on this picture, it should play the video.
- The third page should contain TWO (2) key points about 3D printing.
- Save and show your work to your teacher when you have finished the presentation.

50 marks
